

toscana

Interamente fasciata in pelle, Toscana è una madia di grandi dimensioni e impiego versatile, secondo le sue varianti con cassetti o con interno ad ante.

La caratteristica di Toscana, comune alle due versioni, è nei vani angolari: le ante esterne infatti si aprono come un'edicola, nel senso latino del termine: quasi un tempio che rivela il suo contenuto spalancando in fuori le ali delle sue chiusure laterali.

Una struttura a due colonne in acciaio che ricordano la sua forma a tempio, Toscana si presta a collocazioni diverse ma sempre di grande sobrietà.

Entirely covered in leather, Toscana is a sideboard of big dimensions and a versatile use, due to its variants with drawers or with doors inside.

The feature of Toscana, common to the two versions, is in the angular compartments: the external doors open like an aedicule, in the Latin sense of the term: almost a small temple that reveals its content by opening the wings of its side closures.

A structure with two steel columns reminiscent of its temple shape, Toscana lends itself to different arrangements, always with great sobriety.

Struttura in legno multistrato.
Rivestimento esterno in pelle P2, interno in pelle sintetica.
Top in pelle P3, P2 o marmo.
Gambe in metallo verniciato.

Structure in plywood.
Covering in leather P2 (external part) and synthetic leather (internal part).
Top in leather P3, P2 or marble.
Legs in painted metal.
